Sep 03, 2024
Japan

About the Role

MAJOR ACCOUNTABILITIES

- Understand overseas manufacturing processes and reflect them in domestic manufacturing processes. Ensure that manufacturing equipment and procedures are at a level that ensures product quality and compliance in commercial production.
- Hire associates and offer proper training.
- Supervise the day-to-day operations to ensure that quality products are manufactured and delivered to customers in a compliant, efficient and cost-effective manner, in a manner consistent with a culture of self-management (delegation and accountability).
- Ensure that resource planning on the manufacturing floor is adequate in correlation with production workload vs planning.
- Management of production schedules within Operation Horizon.
- Fix priorities in the event of unforeseen events and readjust the production schedule if necessary.
- Ensures that human and technical resources are used effectively to achieve the objectives set.
- Continuously improve productivity, quality and safety management through the use of operational excellence techniques

Essential Requirements:

- 5+ years' experience in a GMP environment in the pharmaceutical or life sciences industry with commercial production experience
- At least 2 years' experience in a managerial position in a GMP environment.
- Must have experience in handling aseptic products.
- University degree in science. pharmacy, pharmaceutical technology or chemical engineering is preferred.
- Qualifications in Lean Management, Operational Excellence certificate
- Fluent both in English and Japanese
