

Associate Director DDIT ISC CSOC Onboarding

Job ID REQ-10023036 Sep 26, 2024 Mexico

About the Role

MAJOR ACCOUNTABILITIES

In addition to accountabilities listed above in Job Purpose:

Onboarding Lead

- Lead and manage a geographically distributed team of Skilled Engineers, providing guidance and support while leveraging their diverse skillsets and personalities.
- Evaluate and review performance metrics and KPIs to ensure the Onboarding team is meeting targets and delivering efficient and effective results.
- Take accountability for the team's performance in various areas, including but not limited to data onboarding to:
 - SIEM platforms such as Sentinel and Splunk
 - Supporting audit requests and reports
 - Engaging with product teams to address technical challenges
 - Managing stakeholders' commitments
- Act as the primary point of contact for first-level escalations, addressing any issues or concerns that arise and ensuring timely resolution.
- Develop and maintain comprehensive documentation to facilitate knowledge sharing and ensure quality outcomes are consistently achieved.
- Drive a culture of continuous improvement and innovation within the team, identifying opportunities to optimize processes and enhance efficiency.
- Serve as a subject matter expert in onboarding processes and play an active role in guiding the team and providing expertise whenever needed.

Data Onboarding and Technical Management

- Evaluate and onboard new data sources, performing data analysis for identifying anomalies and trends, and developing dashboards and visualizations for data reporting.
- Collaborate with CSOC engineers, Threat Hunters, and CSOC Analysts to gather requirements and develop solutions.
- Troubleshoot and provide support for onboarding issues with platforms like Sentinel, Splunk, and Cribl.
- Validate and ensure proper configuration and implementation of new logics with security system and application owners.
- Perform data normalization, establish datasets, and develop data models.
- Manage backlog of customer requests for onboarding new data sources.
- o Detect and resolve issues in various data sources, implementing health monitoring for data sources

and feeds.

• Identify opportunities for automation in data onboarding and proactively detect parsing/missing-data issues.

Mandatory Requirements:

- Previous experience as a Team Leader
- Hands-on experience of SIEM tools with preferible certification of Splunk, Sentinel etc., and experience managing Data ingestion pipeline through Cribl
- Understanding of security systems (such as AV, IPS, Proxy, FWs etc.).
- Solid understanding of error messages and logs displayed by various software.
- Understanding of network protocols and topologies.
- Excellent communications skills with written and spoken English

Desirable Requirements:

- Security use-case design and development
- Understanding of SOAR
