About the Role

Job Purpose:

The Global System Integration Expert supports the efforts to create system integrations via TetraScience Data platform

Experience Required: Minimum 10 years of laboratory experience in a pharma industry.

Major Accountabilities:

- Act as technical expert in creation of pipelines programmed in DataWeave programming language.
- Creates pipelines (custom code) to enable data from various laboratory systems to be transferred to the current LIMS system
- Supports establishment and maintenance of global documentation related to the systems in scope
- Identifies and anticipates site needs, determines what features should be implemented, and support prioritization
- Supports establishment of release timelines, content of each release, oversee the application development stages and supports completion of each release in accordance with the approved plan.
- Supports Business screening, PQ scripting and PQ execution.
- Provides required periodic progress reports, milestone activities and communications to the program management.
- Supports establishment and maintenance of global documentation related to the systems in scope (e.g. SOPs, WIs, user guides, etc)
- Contribute to Laboratory Operations Quality System in defining and implementation of strategy and defined activities.
- Adheres to all applicable procedures, cGMPs, company policies and any other quality or regulatory requirements.

Key Performance Indicators:

- Metrics according to target
- Individual project completion
- Achieves agreed targets and objectives in terms of quality, time and cost
- Supports departmental objectives to implement systems according to overall program plans

Minimum Requirements:

Education:

University degree in Pharmacy, Engineering, Chemistry or equivalent Discipline

Experience:

Thorough knowledge of cGMP requirements:

- * The profile must have strong knowledge in Data Weave programming language.
 - * Computer System Validation experience is key expectation, similarly coding experience
 - * Strong understanding of regulatory requirements for commercial products.
 - * Technical understanding of laboratory business processes and enterprise data expertise
 - * Experience with Labware LIMS and/or TetraScience data platform
 - * Strong understanding of risk assessment and risk management fundamentals/tools.
 - * Team and consensus builder, with definitive and authoritative decision-making ability.
- Critical Negotiations.
 - Functional Breadth.
 - Project Management.
 - People Leadership.
 - Collaborating across boundaries.
 - Operations Management and Execution.
