

Specialist DDIT ISC Detection & Response

Job ID
REQ-10028336
Nov 06, 2024
Czech Republic

About the Role

Your key responsibilities:

- Security Monitoring and Triage, monitor in real time security controls and alerts originating from the Novartis IT ecosystem.
- Communicate with technical and non-technical end users who report suspicious activity.
- Forensics and Incident Response activities: conduct initial investigations into suspicious events and activity; gather live evidence and logs from a variety of devices and applications; support incident response activities including scoping, communication, reporting, and long-term remediation planning.
- Prepare technical reports for business stakeholders and IT leadership.
- Big data analysis and reporting: utilizing SIEM/Big data to identify abnormal activity and extract meaningful insights; research, develop, and enhance content within SIEM and other tools.
- Technologies and automation: Interface with engineering teams to propose new automation and orchestration concepts; research and test new technologies and platforms; develop recommendations and improvement plans.
- Perform host-based analysis, artifact analysis, network analysis, and malware analysis in support of security investigations and incident response.
- Coordinate investigation, containment, and other response activities with business stakeholders and groups.
- Develop and maintain effective documentation, including response playbooks, processes, and other supporting operational material.
- Develop incident analysis and findings reports for management, including gap identification and recommendations for improvement.
- Recommend or develop new detection logic and tune existing sensors / security controls.
- Work with security solutions owners to assess existing security solutions array ability to detect / mitigate the abovementioned TTPs.
- Creating custom SIEM queries and dashboards to support the monitoring and detection of advanced TTPs against Novartis network.

What you'll bring to the role:

- University working and thinking level, degree in business/technical/scientific area or comparable education/experience
- 3+ years experience in cybersecurity / security operations
- Experience in Information Technology / Analytical role preferred
- Experience in IT administration with technical, analytical and conceptual skills
- Good knowledge of IT Security Project Management

- Understanding and knowledge of general IT infrastructure technology and systems
- Knowledge of (information) risk management related standards or frameworks such as COSO, ISO 2700x, CobiT, ISO 24762, BS 25999, NIST, ISF Standard of Good Practice and ITIL
- Knowledge of security frameworks such as Hitrust
- Host and network based forensic collection and analysis
- Dynamic malware analysis, reverse engineering, and/or scripting abilities
- Familiarity with Encase, Responder, X-Ways, Volatility, FTK, Axiom, Splunk, Wireshark, and other forensic tools
- Understanding of Advanced Persistent Threat (APT) and associated tactics.
- Research, enrichment, and searching of indicators of compromise
- Excellent written and verbal communication and presentation skills; interpersonal and collaborative skills; the ability to communicate information risk-related and incident response concepts to technical as well as nontechnical audiences; ability to report to technical and non technical audiences
- Understanding of pharmaceutical industry, including familiarity with business processes in a global pharmaceutical industry

Desirable:

- Professional information security certification, such as CISSP, CISM or ISO 27001 auditor / practitioner & Professional (information system) risk or audit certification such as CIA, CISA or CRISC

You'll receive (Prague only):

Monthly pension contribution matching your individual contribution up to 3% of your gross monthly base salary; Risk Life Insurance (full cost covered by Novartis); 5-week holiday per year; (1 week above the Labour Law requirement) ; 4 paid sick days within one calendar year in case of absence due to sickness without a medical sickness report; Cafeteria employee benefit program – choice of benefits from Benefit Plus Cafeteria in the amount of 12,500 CZK per year; Meal vouchers in amount of 90 CZK for each working day (full tax covered by company); public transportation allowance; MultiSport Card.
