NOVARTIS

Global ESG EDM Data Governance and Quality Manager

Job ID
REQ-10029043
Nov 13, 2024
Czech Republic

About the Role

Key Responsibilities:

Your responsibilities include, but are not limited to:

- Lead the design, implementation, and management of the organization's data governance framework and policies
- Establish data quality standards, KPIs, and metrics to monitor the health and integrity of enterprise data assets
- Oversee creation, maintenance, and governance of master data across various domains
- Define and oversee data architecture strategies, ensuring alignment with business processes and objectives, monitor data performance, and resolve data quality issues
- Support data architects in designing logical and physical data models that meet business and legal requirements and ensure scalability
- Align data control processes with business objectives and technological solutions within specific domains
- Manage the data lifecycle, ensuring data classification and data security are upheld according to enterprise guidelines
- Provide strategic guidance on the management and flow of data, ensuring integration with existing systems and processes

Essential Requirements:

- Minimum Bachelor Degree (IT or Data focus), Master Degree is a plus
- Proven experience in data governance, data quality management, or data architecture roles
- Deep understanding of data governance frameworks, data management best practices, and MDM principles
- Experience with data quality management tools and techniques, including data lineage, data profiling, and data cleansing
- Strong knowledge of enterprise data architecture and data modeling standards
- Strong communication skills, with the ability to influence stakeholders and explain technical concepts to non-technical audiences
- Proficiency in data management platforms, ERPs, and business intelligence tools

Desirable requirements:

- Experience working in large-scale MDM implementations across multiple business domains
- Experience in developing data governance metrics and dashboards for executive reporting
