

Sr.Specialist – Wireless Network Engineering

Job ID
REQ-10014236
Jul 16, 2024
Mexico

About the Role

MAJOR ACCOUNTABILITIES

- Design, implement and maintain LAN and WAN networks.
- Configure and maintain routers, switches, firewalls, load balancers and other networking equipment.
- Provide technical support and troubleshooting for network-related issues.
- Perform network monitoring and capacity planning to ensure optimal network performance.
- Collaborate with other IT teams to ensure seamless integration of network infrastructure with other systems.
- Develop and maintain documentation related to network infrastructure and operations.
- Participate in network security initiatives and ensure compliance with security policies.
- Keep up to date with industry developments and best practices related to networking.

EDUCATION

- Bachelor's degree in computer science, Information Technology, or a related field.
- Required Cisco Certified Network Professional (CCNP) or CCIE or equivalent level from other vendors.

Continuous Learning:

Commitment to ongoing professional development through courses, workshops, and seminars to stay current with evolving technologies and industry standards.

EXPERIENCE

- 8+ years of experience in Designing and Implementing Next-Gen Wireless Networks.
- Previous experience of working as a SME/Lead Engineer for Cisco Wireless
- Familiarity with RF planning and capabilities of performing site surveys using one or more tools (Ekahau, AirMagnet etc.)
- Strong analytical and troubleshooting skills.
- Proficiency in creating architecture documents (HLD/LLD/Work Instructions)
- Excellent communication and collaboration skills.
- Ability to work in a fast-paced, dynamic environment.

SKILLS & KNOWLEDGE

- Working experience with wide range of Cisco & Meraki Wireless Product Family.
- Experience with Cisco AireOS & Catalyst Controllers
- Network management platforms like Cisco Catalyst center (D-NAC) and ISE.
- Ability to act as a SME for Wireless domain and lead key projects and initiatives.
- Experience operating high-density AP and client deployments.
- Ability to perform passive and active wireless site surveys (e.g. Using Ekahau)

LANGUAGES

- Business fluent in English (written and spoken)

SPECIFIC PROFESSIONAL COMPETENCIES (optional)

- Prior experience of working in Pharmaceutical or Healthcare industry is a plus.
- Basic knowledge of network infrastructure automation using Python, Ansible and Restful API is a plus.
