

# Peptide Chemist (Senior Expert S&T) (m/f/d)

Job ID

REQ-10031630

Jan 17, 2025

Switzerland

## About the Role

The position is within the Technical R&D department of Drug Development. Within this organization Chemical & Analytical Development (CHAD) plays an essential role in the development of processes for manufacturing and analysis of Radioligand Therapies and oligonucleotide drug substances.

Your Responsibilities:

- With your strong expertise and creativity in development of manufacturing processes you take a leading role in defining future manufacturing processes and strategies for peptide based Radioligand Therapies.
- In our labs, your experimental designs will be executed and allow you to interpret and report data and results.
- As a core member of cross-functional team, you collaborate closely with our internal and external partners to ensure timely and quality GMP and non-GMP manufacture of new Radioligand Therapies to support Tox supply and clinical trials.
- Further, you provide relevant process documentation in support of filing of dossiers.
- You also actively participate in scientific exchange groups within Novartis and Academia as well as maintain excellent collaborations with our customers.

Required education and expertise:

- We are looking for candidates with PhD and PostDoc in Synthetic Chemistry or equivalent with specialization in the field of peptide synthesis, e.g. SPPS.
- A minimum of 5 years relevant professional experience in chemical process development for synthetic peptides is a key requirement.
- Good knowledge of English (oral and written) is required good command of German (spoken/ written) is desirable.

Desirable expertise and skills:

- Scientific curiosity coupled with recognized achievements in the field of peptide chemistry is considered beneficial.
- Knowledge in modelling and simulation, programming skills and sound IT knowledge are a plus.
- Track record in leading lab teams, pilot plant operations or experience in a GMP environment is beneficial.

- Dedicated, thoughtful and flexible team working skills.

Commitment to Diversity and Inclusion: Novartis is committed to building an outstanding, inclusive work environment and diverse teams' representative of the patients and communities we serve.

#### Accessibility and accommodation

Novartis is committed to working with and providing reasonable accommodation to all individuals. If, because of a medical condition or disability, you need a reasonable accommodation for any part of the recruitment process, or in order to receive more detailed information about the essential functions of a position, please send an e-mail to [inclusion.switzerland@novartis.com](mailto:inclusion.switzerland@novartis.com) and let us know the nature of your request and your contact information. Please include the job requisition number in your message.

## Role Requirements

**Why Novartis:** Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you.
